Traiskirchen, Lower Austria

romangutmannmobile@gmail.com | roman-gutmann.at | GitHub | LinkedIn

CORE COMPETENCIES

Backend & APIs

Foundations in C#, .NET, ASP.NET Core MVC and Razor; exposure to PHP and Laravel.

Frontend & CMS

Hands-on experience with WordPress; foundations in HTML, CSS, JavaScript/TypeScript, Vue, Nuxt and Vite.

Databases

Foundations in SQL Server, MySQL, data modelling and structured queries.

AI & tools

OpenAI Codex, Git, Docker and Jira; structuring tasks, reviewing results and testing changes step by step.

Technical practice

Hardware, installation, troubleshooting, network components and support.

Collaboration

Clear communication, a team-oriented and reliable approach, and more than 20 years of experience with customers and colleagues.

LANGUAGES

German: native | English: good working proficiency

EDUCATION

2023-June 2026 | Apprenticeship in Application Development | BBRZ

Final apprenticeship examination passed with distinction in 2026.

1994-1998 | Electronics & Communications Engineering | HTBLuVA Mödling

Technical education completed through the fourth year.

PROFILE

Application developer with foundations in web development and databases. I use AI-assisted tools to approach new tasks in a structured way, define requirements and review results carefully. More than 20 years of professional experience have shaped my reliability, clear communication and respectful, team-oriented approach. I am looking for a long-term role where I can continue developing my skills and make a dependable contribution.

PROFESSIONAL EXPERIENCE

08/2026 | Application Developer | Prowect e.U.

Analysed and worked on clearly scoped issues in existing web applications using PHP/Laravel, Vue/Nuxt, TypeScript and Vite; structured implementation with OpenAI Codex.

2024-June 2026 | Part-time Web Development Internship | Prowect e.U.

Up to 16 hours per week. Set up and customised three WordPress websites and handled smaller tasks in existing web applications.

2000-2022 | Technology Sales Advisor | MediaMarkt

Advised customers on computer hardware, accessories and appliances; long-standing experience in communication, teamwork and reliable service.

1999-2000 | Support & PC Technician | EDV-Design

Internal and external support, PC installation and upgrades, and maintenance of network components.

1998-1999 | Electrical Installation Technician | ASC

Electrical installations and technical work as part of a team.

PERSONAL PROJECT

Application Manager | Personal Development Project

Web application for job applications, documents and communication using C# / ASP.NET Core, React / TypeScript, PostgreSQL and Docker. Idea, requirements, software design, UI/UX and project direction by Roman Gutmann; AI-assisted technical implementation with OpenAI Codex under his review and acceptance.
